PIANO DEL COLORE

GAMMA CROMATICA **COMUNE DI MAZZÈ**

Le coloriture ammesse sono catalogate come di seguito, 57 tonalità per gli intonaci, 47 per le coloriture dei legni e 44 per i ferri.

I colori adottati dal Piano del Colore sono raccolti nella successiva tabella riepilogativa; suddivisi secondo le colorazioni RAL, affiancando possibili variazioni secondo la classificazione NCS.

Al fine di rendere più agevole la progettazione, è inserito a fianco della catalogazione RAL e NCS il valore RGB di riferimento.

Si ricorda in ogni caso che le tonalità visualizzate sono presentate a solo scopo indicativo, professionisti e proprietari sono invitati a visionare i colori su una mazzetta colori RAL o NCS disponibile nei cataloghi dei principali produttori di vernici.

Ai sensi degli artt. 5 e 6 del Regolamento, la gamma cromatica **AULICA** è la mazzetta di riferimento per la macro zona Centro Storico e per manufatti di interesse storico-artistico nell'ambito generale del Comune, mentre per gli altri ambiti è integrata dalla Gamma Cromatica **Comune di Mazzè**.

Oltre alle colorazioni, come all'art. 5 del Regolamento, sono da considerarsi congrui i rivestimenti con materiali naturali o artefatti (pietre, laterizi, ceramiche, legni, ecc.), purché di spiccato valore estetico e meccanico/funzionale e correttamente inserite in una valutazione cromatica generale dei prospetti degli edifici interessati.
